Summary

Computer Systems Engineer with 4 years of experience building enterprise applications and APIs. Specialized in C#/.NET, ASP.NET Core, Entity Framework and SQL Server, with additional experience in Angular and TypeScript for full-stack solutions. Involved in the development, maintenance and modernization of systems, REST API integration and database migration. I stand out for my ability to analyze problems, propose solutions and build maintainable, results-oriented software.

Skills

Backend: C# · .NET 8 · ASP.NET Core · Web API · Entity Framework Core · REST APIs · JWT · AutoMapper · BCrypt
Frontend: Angular 20 · TypeScript · RxJS · HTML · CSS
Databases: SQL Server · MySQL · MySQL to SQL Server migration · Database First
Tools: Git · Swagger/OpenAPI · Visual Studio · VS Code · npm · Angular CLI · Jira · Azure DevOps · Power BI
Other: Scrum · Kanban · Manual testing · PHP · Software architecture · Web layout
